

Wind Power Energises Company's Expansion

Increased development of wind generated electricity is driving the growth of Stirling-based company Oldbaum Services Ltd. The company specialises in wind resource measurements providing critical data for the development and operation of on-shore and off-shore wind parks.

Oldbaum Services, located on the Stirling University Innovation Park, is poised to take advantage of growth within the sector both at home and internationally. The company has recently moved into larger premises on the Innovation Park to accommodate a doubling of staff from three to six, and the expectation of a further increase within a few weeks.

Monica Griesbaum, a director of the company, said: 'This is an area that is flourishing and we are winning more and bigger projects ... [more](#).

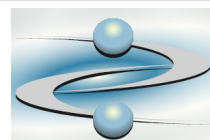

6th Convergent Technologies Showcase & Conference - Healthcare Efficiency through Prevention and Intervention

Wednesday, 11th May 2011 9:30am - 3pm, Stirling Management Centre

A range of circumstances from demographics to the current economic crisis is driving enormous change in healthcare across the globe. Improving efficiency is crucial and innovative technology solutions will play a key part in this. This event focuses on introducing innovative technology businesses to a burgeoning healthcare market they may never have considered entering and will bring together healthcare professionals, clinicians, academics, inventors, investors and technology companies.

This year's Keynote presentations will be given by Dr Peter Donnelly, CEO, Bio Business (*Connecting Health with Technologies – does it provide solutions?*), Eunice Muir, Executive Nurse Director, NHS 24 (*Telehealth in Scotland*) and Margaret Duffy, COO, NHS Forth Valley (*Developing World Class Facilities*).

Lunch & Learn Session - Growth or Stagnation? It's Your Choice.

Wednesday, 18th May 2011, 12 Noon - 1pm

Dumyat Conference Room, Stirling University Innovation Park

You've developed your business to a stage where you have regular customers and a steady sales pipeline. Everything is going well, so all you need to do is more of the same – right?

That might work for a while, but if you really want your business to survive in the longer term, you need to be diversifying your product offerings right now. But how can you do that and keep everything else going as well?

In this participative session, Wendy Inglis Humphrey, lead consultant of **Otocos** will give you insight into business dynamics and when you need to be working on your next product in order to maintain or grow your business. She will explore your options with a range of tools that can help you prioritise what's important and make decisions about how to spend your time. Otocos works with clients to create order, improve understanding and transform ideas into action. They help you to be more productive, communicate your aims better and deliver what you say you will. Otocos can help you make new ideas drive your business forward. To register, please [click here](#).

Make the Smart move and prepare to Export

Exporting is one way to grow your business and is easier and more cost effective than you might think.

The International Preparedness Programme, in Partnership with SDI, runs at various times and locations throughout Scotland and consists of a series of workshops designed to help expand knowledge and expertise in all areas of exporting. It assists with developing export plans to ensure export growth and arms companies with the skills and confidence to thrive in competitive international markets.

Smart Exporter has been developed to offer free or subsidised services for businesses at various stages of their international development. Its broad range of free support includes market awareness, strategy development, specialist technical support, online learning, in-house training and specific events focussing on international opportunities.

For further detail of both these initiatives, please [click here](#).

Rapid Prototyping & 3D Physical Modelling Awareness

Digital Design & Manufacturing Studios, University of Strathclyde

Wednesday, 6th April, 2011, 6.30pm - 8pm

Would 3D Physical models benefit your design and production processes, from conceptual design through to final manufacture? Are you aware how inexpensive this could be?

This free evening awareness presentation and demonstration seminar has been organised by the Product Realisation Centre and DMEM. The seminar will consist of a short presentation and demonstration of the design facilities available at DDMS.

Art on the Park: Tracey Pacitti - Fab at 40 Exhibition

Tracey Pacitti is a self taught Artist who exhibits throughout the year across Edinburgh, Fife and the Lothians.

Despite having a life long interest in self expression through painting, it is only in the last 18 months that Tracey has come to paint seriously and in this her first solo show, she illustrates the direction that her work has taken during that time.

The exhibition will run from **9th April to 22nd May 2011** in Scion House, Stirling University Innovation Park.

Everyone is welcome at her Exhibition Opening on Saturday 9th April, 6:30pm - 8:30pm.
